UTAH'S UNIQUE "AD."

Exhibited on Wheels.

Yesterday morning the Utah exposition car arrived at the Union Pacific passenger depot, and during the day it was visited by hundreds of curious people. As an advertisement of Zon's resources and industries it is unique and effective.

The car's exterior is covered with cleverly executed oil paintings of Utah scenery and fruit and vegetable products. The landscape work is excepconally well done. The scenes include 'Pillars of the Wasatch" aud "Lake Micnie' by Culmer, "Sunset on Salt Lake" and "Castle Gate" by Lam-bourne, and "Sunset in American Fork Carpyon" by John Tullidge. The sail life paintings extend over much of the pace and are from the brush of Dan Weggeland.

The interior of the car is filled with tastily arranged exhibits. The space devoted to the exposition is 9x36 feet; a 9x9 space in the rear of the car is given up to the living apartment, occupied by H. L. A. Culmer, who has charge of the car and is demonstrator, Douglas White, transportation and press agent, and Junius Brutus Young, the porter. In the exhibit part, glass and nickle cases line the walls for 250 square feet, and there are forty-eight feet of large photographs in silvered frames. In the car centre stands a 23/x14 glass case filled with specimens, and there are numerous pockets, shelves, cubby holes wherein to store the numerous bottles of water. Hot Su'phur Springs water, lake sand, Utah cereals in bags, etc., that are given away. The floor is etc., that are given away. The floor is cover d with Brussels carpet, and every care is taken to make the car comfortable and convenient. The 9x9 apartment is a gem. The walls are hidden in crimson bangings, and further decorated with oil paintings by Harry Culmer. Then there is a big velvet Pullman settee for a double bed. folding tables and chairs, desk, wardrobe, toilet stand, ice chests, etc., all of the cest and most convenient makes. The car windows are handmakes. The car windows are hand-somely draped in colored lace and cur-tains are set beneath. Underneath the car are two 3x3x10 foot cellars to hold printed matter, tools, extras etc. The t oroughness of the work done by the car dressers was shown by the fact that notwithstanding the jolling of the car on the road, not an exhibit was jarred from its copper wire and board fasten-

ngs. The car will start this evening for St. Paul over the Milwankee road. Thence it will proceed to Minneapolis, Chicago and through to New York.

Everybody is invited to inspect the car and is contents to day, and the invitation will doubtless be unanimously accepted .- Omaha H-raid.
